ANALYSIS / DISCUSSION

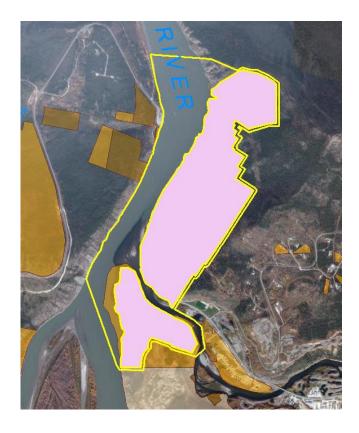

The primary change to the nomination, following the ICOMOS Interim Report, includes a change to the proposed buffer of two of the sites. 1) The Forty Mile Components, and 2) the Dawson and Tr'ochëk components.

Purpose of a buffer zone: In this case, the expanded buffer is to consider the connectivity between the sites, and the relationship between the sites and the rivers, which were important in the settlement of the area. The World Heritage Operational Guidelines document defines buffer zones as:

"For the purposes of effective protection of the nominated property, a buffer zone is an area surrounding the nominated property which has complementary legal and/or customary restrictions placed on its use and development to give an added layer of protection to the property. This should include the immediate setting of the nominated property, important views and other areas or attributes that are functionally important as a support to the property and its protection. The area constituting the buffer zone should be determined in each case through appropriate mechanisms. Details on the size, characteristics and authorized uses of a buffer zone, as well as a map indicating the precise boundaries of the property and its buffer zone, should be provided in the nomination."

Description of Amended Buffer: The Dawson City and Tr'ochëk components are grouped by incorporating portions of the Yukon and Klondike rivers adjacent to and between the sites. A 30m buffer is maintained around the inland portions of the components as per the nomination dossier.

Rationale for Amendment: This option connects the 2 components and protects important viewscapes between and from the sites. This change addresses feedback received from ICOMOS which suggests an expanded buffer zone to consider important landscape elements, including the rivers and viewscapes, to address their concerns about fragmentation of the world heritage site. It also continues to utilize legally protected buffers (30m) around the periphery of the components. This buffer zone does not include any additional mineral claims, or any additional lands, and legal mechanism of protection continues to be development regulation through the Heritage Management Plan and heritage bylaw.

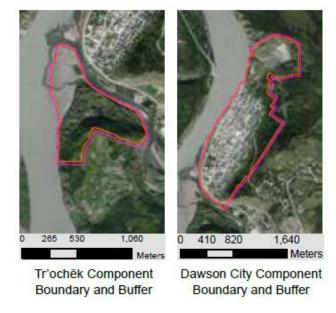

Figure 1. Amended Buffer

Figure 2. Original Buffer

The boundary of Dawson City and Tr'ochëk Components in the nomination include the areas shaded in pink; The expanded buffer zone around the future world heritage site is the area outlined in yellow.

There is also a similar buffer change for the Forty Mile components; however, this is outside of the municipality.

The next decision point for Council will be reviewing and adopting the Memorandum of Understanding and Terms of Reference for the joint management and protection of the Tr'ondëk-Klondike world heritage site. The goal is for the MOU and TOR to be approved and signed off by mid-May to align with the anticipated inscription decision. Consideration of the MOU & TOR will include consideration to the commitment of funding a staff position from each of the parties, including the City.

2.0 Purpose

The purpose of this MOU is to set out the means by which the Parties agree to collaborate through mutual understanding and assistance to manage, and make decisions regarding, TKWHS. The Management Plan outlines the tools and methods to achieve this.

3.0 Scope

This MOU covers the relationship between the Parties and takes effect once the World Heritage Committee inscribes Tr'ondëk-Klondike on the World Heritage List.

Any reference in this MOU to the Tr'ondëk-Klondike World Heritage Site (TKWHS) is conditional on the successful inscription by the World Heritage Committee.

4.0 Background

In 2004, "The Klondike" was placed on Canada's Tentative List for potential inscription on UNESCO's World Heritage List. As such, it was proposed by Canada as a candidate for the highest possible international recognition for cultural and natural heritage sites. It is a distinction that brings greater international attention to an extraordinary place, while fostering community pride and civic engagement.

The Advisory Committee worked from 2013 to 2017 to develop a nomination for Tr'ondëk-Klondike. This nomination was recalled by the State Party for further work on the nomination. A new concept proposal was submitted to ICOMOS for an upstream review in 2019 and a new nomination was developed by conducting research, heritage values workshops with stakeholders, and management planning exercises. The new nomination was submitted in 2021. The support of local residents, organizations, and all levels of government was instrumental in the completion of the nomination.

Following the submission of a nomination to UNESCO in February 2021, and its evaluation led by ICOMOS, the World Heritage Committee inscribed Tr'ondëk-Klondike on the World Heritage List in July 2022.

There are multiple Regulatory Authorities active within the nominated property. Consequently, and in line with the requirements outlined in the Operational Guidelines, the Parties have jointly developed a Management

Plan and a governance structure for its implementation. The Stewardship Committee, composed of the heritage representatives from each government, is well-positioned for collaborative management of the World Heritage Site.

5.0 Statement of Commitment

The Parties agree to protect the OUV of TKWHS and the components of TKWHS that are recognized as the basis for its OUV as recognized by the World Heritage Committee at the time of the inscription of Tr'ondëk-Klondike on the World Heritage List, within their respective jurisdictional powers, mandates and operational abilities.

The Parties agree to apply the following principles to guide the implementation of the "Tr'ondëk-Klondike World Heritage Site Management Plan" during the term of this MOU:

- Principle 1: The Management Plan establishes a framework of existing management plans, regulations and practices that apply to Tr'ondëk-Klondike and its buffer zone.
- Principle 2: The Management
 Plan places the management and
 conservation of Tr'ondëk Klondike's OUV within the
 existing management policies to
 guide the Stewardship
 Committee in providing advice
 and to assist with making
 decisions and recommendations.
- Principle 3: Management of the nominated property will be delivered through existing government authorities, within their respective jurisdictions, supplemented by advice from the Stewardship Committee and procedures developed to accommodate a designated World Heritage site.

- Principle 4: Management of Tr'ondëk-Klondike will meet or exceed the Parties' respective standards of protection, conservation, and presentation outlined in the Management Plan.
- Principle 5: This MOU and the Stewardship Committee's Terms of Reference support a process in which communication and collaboration will occur to mitigate any actions undertaken by an owner or a government entity with regulatory responsibilities that may impact the OUV and/or components of the nominated property.
- Principle 6: The Management Plan recognizes that the property should support economic viability, diversity, and opportunities for residents in a manner consistent with Dawson City's Integrated Sustainability Plan and the United Nations Sustainable Development Goals, while maintaining the Outstanding Universal Value of the property and local stewardship.
- Principle 7: The Stewardship
 Committee will ensure that regular
 monitoring, as outlined in Chapter 6
 of the Nomination Dossier, continues
 to occur, and that status reports are
 assembled on a schedule responding
 to the reporting requirements of the
 State Party, the World Heritage
 Committee, and the World Heritage
 Centre.

In addition, the Parties agree to pursue the following goals and objectives in relation to the management of TKWHS during the term of this MOU and in collaboration with the Stewardship Committee:

Goal 1: To instil a strong sense of shared community pride and stewardship in the protection, interpretation, and promotion of TKWHS by:

- engaging residents, organizations, and other regional stakeholders in activities that celebrate the importance of TKWHS;
- employing a governance model that ensures the interests and concerns of local residents are heard, discussed, and incorporated into the Stewardship Committee's advice to Regulatory Authorities;
- ensuring that local schools are provided with information and opportunities to incorporate TKWHS and its OUV into their curriculum; and
- Supporting opportunities for Tr'ondëk Hwëch'in citizens and other Dawson residents to undertake the conservation, interpretation, and promotion of Tr'ondëk-Klondike.

Goal 2: To provide for the protection, continuing community use, and appreciation of TKWHS by:

- ensuring that visitors have access to appropriate areas of TKWHS and appreciate the site's values without impacting community use; and
- supporting ongoing research about the component sites.

Goal 3: To enrich the lives of residents and visitors by promotingwide recognition, understanding, and appreciation of the educational and cultural values represented by the nominated property by:

- promoting tourism through regional, national, and international media;
- creating an interpretation plan to strengthen understanding, guide the presentation of Tr'ondëk-Klondike, and identify opportunities for sharing the site's OUV;

- ensuring promotion is managed responsibly in all aspects of publicity, respecting cultural principles in accordance with local interests and United Nations Sustainability Goals;
- encouraging and facilitating crosscultural initiatives among community partners to expand understanding of the impacts of colonialism on Indigenous people; and

WHAT'S HAPPENING WITH THE TR'ONDËK-KLONDIKE WORLD HERITAGE NOMINATION?

In February 2021 Canada submitted a new nomination for Tr'ondek-Klondike to UNESCO (the United Nations Educational, Scientific and Cultural Organization). This new nomination of the Tr'ondëk-Klondike heritage site has been accepted for evaluation. Over the next year experts will review the nomination. A decision by UNESCO's World Heritage Committee is expected in spring of 2022.

BACKGROUND

The idea for a Klondike World Heritage site has been around since the 1970s. The idea gained momentum in 2013 when UNESCO designation became a priority during regional economic planning. Over the following four years a community-based initiative led to a formal nomination that Canada submitted in 2017. In May 2018 Canada withdrew the nomination from consideration. This decision was made after the evaluation of the nomination found more work was required.

WE'VE BEEN BUSY SINCE THE SPRING OF 2018.

While the decision to withdraw the nomination was a setback, the local project team was

committed to reworking the nomination. In October 2018, the local project team hired an independent expert to visit and review Tr'ondëk-Klondike. The goal of the review was to help decide whether to revise the current nomination, develop a new nomination, or end the project. Through this review, the local project team and four levels of government continued working together. The local advisory committee suggested a new nomination should place Tr'ondëk Hwëch'in perspective at the center of the gold rush narrative.

THE NEW IDEA

Over the winter of 2019, the project team worked on a new idea for a UNESCO World Heritage Site nomination. The focus of the new concept is the long-standing presence of Indigenous people in the Klondike, before, during and after the establishment of colonial administration. The new nomination includes the many layers of settlement and interaction at Fort Reliance, *Ch'ëdähdëk* (Forty Mile), *Ch'ëdähdëk Tth'än K'et* (Dënezhu Graveyard), Fort Cudahy and Fort Constantine, *Tr'ochëk*, Dawson City, *Jëjik Dhä Dënezhu Kek'it* (Moosehide Village) and *Tthe Zra,y Kek'it*

(Black City). Together, these sites tell a story of Tr'ondëk Hwëch'in experiences of colonialism within their homeland.

This idea was shared with UNESCO's cultural heritage advisor, ICOMOS (International Council on Monuments and Sites). After a rigorous five-month review, ICOMOS determined that a new nomination, focussed on Indigenous experiences of colonialism, could be an important addition to the World Heritage List.

WHAT IS THE NEW NOMINATION?

The new nomination is a serial property, which is a World Heritage site made up of different sites. The new nomination has eight parts: Fort Reliance; Ch'ëdähdëk (Forty Mile); Ch'ëdähdëk *Tth'än K'et* (Dënezhu Graveyard); Fort Cudahy and Fort Constantine; *Tr'ochëk*; Dawson City; *Jëjik Dhä Dënezhu Kek'it* (Moosehide Village); and *Tthe Zra,y Kek'it* (Black City). These sites show the long-standing presence of Indigenous people in the area and their interactions with newcomers between 1874 and 1908. Each part of the site tells the story of different phases of the relationship between Tr'ondëk Hwëch'in and the newcomers who began arriving in Tr'ondëk Hwëch'in's territories in the later part of the nineteenth century.

Together, these eight sites total 334 hectares of land. Each site is a separate and distinct area. The lands and waters in between the sites are not included in the nomination.

Who is the Project Team?

Tr'ondëk-Klondike World Heritage Advisory Committee is non-regulatory. The Committee has representatives from community and mining industry organizations, governments, and residents. Representatives from the Dawson City Museum, Dawson City Chamber of Commerce, Klondike Visitors Association, Klondike Placer Miners Association, Yukon Chamber of Mines, Tr'ondëk Hwëch'in, Yukon, Parks Canada, City of Dawson governments, and Dawson residents (up to four positions, with at least one Tr'ondëk Hwëch'in citizen).

The Project Management Committee is heritage staff from Tr'ondëk-Hwëch'in and Yukon governments.

Most of the eight component sites are on Trondëk Hwëch'in Settlement Lands. *Ch'ëdähdëk* (Forty Mile) and Fort Cudahy and Fort Constantine are co-managed by Trondëk Hwëch'in and Yukon. The sites in Dawson City that contribute to the nomination are all Historic Sites under the care of federal, territorial, and municipal governments.

There are five component sites that currently have management plans: Ch'ëdähdëk (Forty Mile), Fort Cudahy and Fort Constantine, Tr'ochëk, Dawson City, and Jëjik Dhä Dënezhu Kek'it (Moosehide Village). These sites will continue to be managed according to their plans with no additional constraints or changes. The sites that do not have management plans will continue to be managed according to existing legislation, including the Tr'ondëk Hwëch'in Heritage Act, Tr'ondëk Hwëch'in Lands and Resources Act and the Tr'ondëk Hwëch'in Final Agreement and Self-Government Agreement.

All of the component sites of Tr'ondek-Klondike have already had mineral staking rights withdrawn or are on Category A settlement land, identified in the Tr'ondëk Hwëch'in Final Agreement. There are no mining claims located within any of the component sites.

DEVELOPING THE NEW NOMINATION

Drafting the new nomination began in the spring of 2020. The new nomination covers the important historical period from 1874 to 1908. This stretches from the construction of the first fur trading post in Tr'ondëk Hwëch'in territory to when the colonial government and infrastructure was firmly established.

Contractors and heritage staff from Tr'ondëk Hwëch'in and Government of Yukon worked together to draft a statement of Outstanding Universal Value (OUV). The OUV is the core of a World Heritage site nomination. The project team's goal for drafting the OUV was to tell a story that is true, relatable and easy to understand.

The draft nomination was shared with UNESCO's World Heritage Centre in September 2020. This technical review was to ensure critical information was captured in the nomination. The draft included the statement of OUV, the history of the site, and the argument for how Tr'ondëk-Klondike fills a gap in the World Heritage List. There are no World Heritage sites that tell this story of an Indigenous People who experienced colonialism, and most significantly, who continue to inhabit their homeland and practice their traditions and culture.

The nomination was finished in the fall of 2020 and submitted to the World Heritage Centre in Paris, France in January 2021. On March 1, 2021, the nomination was accepted by UNESCO and sent to an Advisory Panel for evaluation.

Funding was provided by Parks Canada, Government of Yukon, and Canadian Northern Economic Development Agency (CanNor) with Tr'ondëk Hwëch'in leading the project, providing in-kind support, heritage and cultural knowledge, and expertise.

NEXT STEPS

Over the next 14 months, up to 10 experts will review the nomination and report back to the Advisory Panel, which reviews the nomination on behalf of ICOMOS. As part of the review, ICOMOS will send a world heritage expert to Dawson for an onsite evaluation. This visit

Outstanding Universal Value means cultural and/or natural significance which is so exceptional as to transcend national boundaries and to be of common importance for present and future generations of all humanity.

will look at the component sites to ensure the nomination's accuracy and completeness. It will likely occur in late summer or early fall of 2021. The COVID-19 pandemic may affect this site visit.

In spring 2022, the Advisory Panel will make recommendations to the UNESCO World Heritage Committee. The World Heritage Committee will make the final decision at its annual meeting in early July 2022.

If Tr'ondëk-Klondike is successfully inscribed on the World Heritage List, staff from the four levels of government will form a Stewardship Committee. This group is responsible for developing and approving an Interpretive Plan and a Management Plan for the site. The local Advisory Committee will meet regularly with the Stewardship Committee to provide community perspectives, concerns and opportunities.

Together, these eight sites total 334 hectares of land. Each site is a separate and distinct area. The lands and waters in between the sites are not included in the nomination.

Will World Heritage status affect my livelihood?

World Heritage status will not affect Tr'ondëk Hwëch'in treaty and Aboriginal rights, resident interests, nor mining. Each of the component sites have previously had mineral staking rights withdrawn or are located within Category A Settlement Land, identified in Tr'ondëk Hwëch'in Final and Self-Government Agreements. There are no active mining claims in the component sites.

Why does this area deserve to be a World Heritage site?

There is no other place like Tr'ondëk-Klondike in the world.

The eight component sites of Tr'ondëk-Klondike have the most complete and exceptional archaeological and historic evidence that reflects an Indigenous peoples' experience of, and adaptation to, the global phenomenon known as European colonialism.

The Tr'ondëk Hwëch'in experience vividly echoes the experiences of Indigenous people in North, Central, and South America; Oceania; Africa; and throughout many parts of Asia during this period. These experiences of the Tr'ondëk Hwëch'in started with the growing commercial activity of the fur trade and the western North American gold rushes and were intensified during the Klondike Gold Rush of 1896 - 1898.

The evidence that relays the heritage values of Tr'ondëk-Klondike is in good condition and the component sites are protected and managed under appropriate legislation and policy. No component site is exposed to unplanned or unregulated development.

Are there any other heritage sites like ours?

Tr'ondëk-Klondike is an exceptional site that illustrates Indigenous peoples' experiences in the face of European colonialism. No other property on the World Heritage List or Tentative Lists currently demonstrates as well, an Indigenous peoples' experience of, and adaptation to, colonialism, nor the continuity of an Indigenous peoples' culture before, during, and after the initial contact period with colonizers.

Tr'ondëk-Klondike is a remarkable illustration of what Indigenous people all around the world experienced over a 500-year period, when European nations imposed their economic, political, military, social, and cultural power on all corners of the globe.

How are cultural sites different from natural sites?

Cultural heritage is ways of living that are passed down from generation to generation, and is demonstrated in places, objects, practices, and language. It represents our history and our identity; our bond to the past, to our present, and the future. Cultural heritage is not limited to material things that we can see and touch, it is also immaterial elements: traditions, oral history, performing arts, social practices, traditional craftsmanship, rituals, knowledge, and skills transmitted from generation to generation within a community.

Natural heritage includes physical, biological, or geological features that have scientific or aesthetic value. Natural World Heritage sites commemorate ecosystems, biodiversity, geological processes, natural beauty, and other natural values.

UNESCO World Heritage sites are nominated for their outstanding cultural and/or natural heritage values, and they are categorized as cultural sites, natural sites, or mixed sites. (Mixed sites must demonstrate both cultural and natural features.) If Tr'ondëk-Klondike is added to the World Heritage List, it will be a cultural site.

Who prepared the nomination?

The development of the Tr'ondëk-Klondike nomination was overseen by a community-based Advisory Committee and managed by Tr'ondëk Hwëch'in. It was prepared by a team of heritage staff from Tr'ondëk Hwëch'in, Government of Yukon, and heritage consultants, all of whom live, raise their families, and make their livelihoods in Yukon.

The World Heritage Advisory Committee consists of representatives from the Klondike Visitors Association, Dawson City Chamber of Commerce, Dawson City Museum, City of Dawson, Tr'ondëk Hwëch'in, Government of Yukon, Klondike National Historic Sites, Klondike Placer Miners' Association, Yukon Chamber of Mines, Tr'ondëk Hwëch'in citizenry, and community residents.

Who supports Tr'ondëk-Klondike?

There is strong local and territorial support for the World Heritage nomination among heritage, tourism, and business sectors, the City of Dawson, Tr'ondëk Hwëch'in, Government of Yukon, and the federal government. The Canadian Northern Economic Development Agency (CanNor), Parks Canada, and Yukon Government provided funding, with in-kind support and project management from Tr'ondëk Hwëch'in.

Who will have authority over the site?

If Trondek-Klondike is inscribed to the World Heritage List, a Stewardship Committee, made up of representatives from each government that manages component sites or heritage sites within the components, will be created. The Stewardship Committee will not have legislated decision-making powers. Each member of the Committee will retain the authority to make independent management decisions relative to land tenure within its jurisdiction.

The current local World Heritage Advisory Committee will provide information and collaborate with the Tr'ondëk-Klondike World Heritage Site Stewardship Committee to ensure that management decisions for Tr'ondëk-Klondike retain continuity and local support.

Proposed development within Tr'ondëk-Klondike will be subject to the legislation, regulations, assessment, and permitting processes of each government authority within their respective jurisdiction.

What are the benefits?

International recognition of Tr'ondëk-Klondike would enrich existing tourism opportunities. "Tr'ondëk - Klondike is a special place unlike any other," said Tr'ondëk Hwëch'in Chief Roberta Joseph, "and we want to ensure that present and future generations, as well as visitors from near and far, hear our story."

World Heritage status will first and foremost, help strengthen our community through working together and respecting each other's stories.

It is expected that marketing through the international lens of the globally recognized UNESCO logo will attract more visitors to Dawson City and Yukon - including higher-spending international and winter visitors. World Heritage status will also likely encourage private-sector investment in expanded facilities and services we will all enjoy. As members of the community, your support for World Heritage status helps support our efforts to diversify our economy, stimulate business opportunities that create year-round jobs and incomes, open up access to new funds for improved community facilities and sustain the exceptional quality of life we enjoy here.

What about the impact of tourism?

The local Stewardship Committee will plan for sustainable increases to visitor numbers, ensuring that visitors have access to appropriate areas of Tr'ondëk -Klondike and can appreciate the site without impacting fragile heritage areas or community use. It is an opportunity to develop and enhance programs at places such as Tr'ochëk, Forty Mile, and Dawson City and leverage funding to increase the site's sustainability. Private areas like Moosehide, where there is no desire for tourism, will not be promoted or made accessible.

How long will it take for the site to be inscribed on the World Heritage List?

The Tr'ondëk -Klondike nomination was submitted by Canada in January 2021 on behalf of the local Advisory Committee, and a decision by the World Heritage Committee is expected in 2022.

What is the role of ICOMOS in World Heritage?

ICOMOS (the International Council on Monuments and Sites) is a non-governmental organization (NGO) that gives recommendations to the World Heritage Committee on cultural and mixed World Heritage sites and new nominations with cultural heritage values.

During the evaluation process, each nomination proposal is assessed by up to 10 experts drawn from the ICOMOS network, who study the nomination and the proposed "Outstanding Universal Value" of the site.

As an international NGO, ICOMOS provides advice to the World Heritage Committee on cultural heritage and has no authority within Canada or any other country.

What is the role of the IUCN in World Heritage?

The IUCN (International Union for the Conservation of Nature) is an international NGO that gives recommendations to the World Heritage Committee on natural, mixed and cultural landscape World Heritage sites and new nominations with natural heritage values. As part of the evaluation process, IUCN will review the nomination for completeness. The Tr'ondëk-Klondike includes only cultural features and does not include cultural landscapes or natural resources. The component sites are protected from industrial development and it is not expected that IUCN will have any comments or further role in the evaluation.
